## It couldn't be easier...

Simply select from a Library of Template Drawings, insert data, such as name or item & price, and print! Or use our automated layout feature to quickly create a sign from scratch. It's that simple! Remember, most point-of-purchase signs and personalized banners have just a few words and since no experience is needed, even your newest employees quickly become experts.

## It couldn't be more efficient...

Your costs for signs and banners will be almost negligible. You'll save hours of time and labor while the machine is "painting" Point-of-Purchase signs, Window Signs, Party Banners, Outdoor Banners, and custom signs of all kinds. The high capacity Gigantagram Pens are refillable and guaranteed for life. This means you purchase the pens once and refill them as needed. The cost of the ink adds just 1/2 cent per square foot of material. Your sign costs are reduced to the material costs of just 10¢/sq.ft. for indoor and 33¢/sq.ft. for outdoor signs. This all translates to dollars for you and service for your customers.

## It couldn't be more versatile...

You can create colorful signs and banners for indoors or outdoors with logos, borders, clip art, distortions, and choose from hundreds of fonts. Choose from up to 14 colors of ink and six different background colors to create beautiful, effective signs. The vinyl cutting capability enables you to produce virtually all types of signage. We'll show you how to create permanent vinyl signs, lawn signs, magnetic signs, window lettering, vehicle lettering, and much more!
